

# Extended Spill Summary Report for DataID #1736916

Report Date: 10/24/2017

Report Time: 10:44 AM

## Hotline Log Entry Information

Data ID: 1736916

Date Of Report: 11-MAR-15 20:31

NRC #: 1110355

State #:

ERNS #:

Material Type: Oil

Receiver: Enders

Material / Amount:

UNKNOWN OIL (50 BARREL(S));

Location:

City: WACO

County: MCLENNAN

State: TX

Source of Pollution:

Water Body:

POND

State Or EPA Responded:

TCEQ

Initial EPA Action:

Multiple pipelines and OSROs at spill locations. Companies are trying to determine which company may be responsible. Related to NRC#1110355. Follow up with RP.

Status:

2 - Closed

Date: 2015/03/11	Time: 22:16	Submitted by: R06 Duty Officer
Duty Officer/Responder Name: JEnders/JMartin	NRC Report #: 1110355	Hotline Log DataID: 1736916
<b>Action Information</b>		
<p><b>Description:</b> 03.11.14 @ 2106 hrs: Per Mr. Moyer, standard procedure for Magellen is to report minimum of 50bbl for any release. He said however, there was only a sheen on the water and possibly on land. There are multiple pipelines in the area and they are trying to figure out whose line it is. Companies mentioned included Koch, EXM, Clint Hills Refinery and Exxon Mobil (NRC#1110352) among some. Mr. Moyer said they were having a conference call at 2130 to hear back from their field people so will touch base later. Too dark to observe much so OSC will follow up in the morning.</p> <p>The pond is land locked. Close to Tehuacana Creek which leads to Trading House Creek Reservoir.</p> <p>03.12.15 @1800 hrs per Magellen: Excavated approximately 100 ft of line with no free product or indication of holes/leaks. Did find some contaminated soil they think could be from previous company. Pressure in line has been steady. Assessment showed no evidence that material had gotten outside of pond. Not sure if sheen is petroleum and sent in sample for fingerprinting and to verify if petroleum. TCEQ came out (Hudson Tuller) but no issues reported. No material has gotten to the creek, soil only.</p> <p>03.16.15 @1230hrs: Spoke with TCEQ, Hudson Tuller and his supervisor. They confirmed the reported information. Soil contamination, sheen on pond and part of drainage ditch, no material had entered creek. The leak/spill was confirmed as Magellen and they are remediating. TCEQ to provide oversight.</p>
